# Spa Hair Services

Redefining the Skincare for your Hair routine, SCALP.SPA, featuring micellar technology, gently attracts and dissolves impurities without stripping the skin of essential oils. Additionally, Celery Seed Extract removes dirt and impurities, and Perlite – a spherical shaped derivative from volcanic rock – gently exfoliates. After unclogging, toning and cleansing the scalp and strands, Co-Surfactants which are derived from sustainably harvested coconut oil, work to maintain moisture and soothe – making SCALP.SPA the answer to either an oily or dry scalp.

*For each of the following treatments, we gently exfoliate and massage the scalp and then we rinse and condition with a continued massage. We then blow dry and style the hair. This treatment is 1 hour.*

Scalp Spa Exfoliating Treatment ..... **Opening Special \$100**

Womens Haircut ..... **\$100**      Mens Haircut ..... **\$65**

# Wedding Day Hair - Dry Styling

Dry styling is the most efficient way for long lasting hair. We prefer hair that has been washed and dried the day before you arrive (never fear we will freshen up that hair and style it to your liking.) The old school way was to come with very dirty hair. We like clean bone dry hair preferably only 1 day dirty. This makes sure there's not extra moisture for a long lasting wedding day style.

Dry styling also helps cut back on time for those of you in bridal parties that are larger. We typically take 1 hour for bridal hair and 1 hour for bridal makeup. We average 45 mins for bridesmaids. We have an in staff wedding coordinator to help organize and book your bridal party for parties with 3 or more for a seamless experience.

Want that wash and blow dry? Never fear we have an add on blowout price, but remember that blow drying takes more time and there is an added cost of \$65+ Getting a blow out the day before the wedding is always a good idea, but pro tip do not flat iron the hair, curls are ok.

<i>Bride Hair</i> .....	<b>\$200</b>

## KEVIN MURPHY

At KEVIN.MURPHY, we maintain our commitment to the environmental issues that affect us. We create products with a conscience that does no harm to our environment by utilizing packaging that is recyclable or biodegradable. We use only sulphate free surfactants that effectively cleanse and remove surface oil and dirt, without stripping or depleting the hair of its color. We use AHAs, or fruit acids, derived from Papaya, Citrus, and Sugar Cane that gently exfoliate the hair surface

without drying or depleting the hair. Natural surfactants from the Soap Bark Tree, Quillaja, and other plant-derived sources create rich luxurious lathers that moisturize and nourish the hair.

We have chosen an exclusive line of hair care products from stylist Kevin Murphy. Murphy is Australia's premier editorial hairstylist. He has channeled his demand for a style-forward, performance-based product line with his desire to offer nature-based products that were also eco- and animal- friendly. The results are the Kevin Murphy hair care line.

“We are very excited to partner with Kevin

Murphy in offering our guests a new product line that offers so much to our stylists and our guests by providing performance that meets the Edgewood Lake Tahoe's standards, supports our profession, and has the added bonus of being in-tune with the values of many of our guests”

Known as “skincare for the hair,” Kevin Murphy products are designed to be weightless while delivering exceptional styling capabilities, all in a nature-friendly product that consumers feel great about. Using extracts from Peruvian bark, bamboo, lotus flower, and more, Kevin Murphy products offer natural benefits to cleanse, treat, and style the hair. In addition, the company partners with those using micro-cultivation and organic growing to ensure high quality ingredients.

Along with the many globe-friendly initiatives of Kevin Murphy will see perhaps its biggest impact yet. In the coming years, the company will be using 100% recycled ocean plastics for its packaging, a move that is expected to save 360 tons of new plastic in its first year.

# *A little about our extensions:*

## HALO COUTURE EXTENSIONS

A simple design, that is self-applied and damage-free. Today we offer hundreds of styles, lengths, colors, and blends to create gorgeous transformations you will love. Our entire collection of HALO's are made with 100% Remy Human Hair, allowing you to style and wash your HALOCOUTURE® Extensions just like your natural hair.

*We want you to be able to add hair to any style just in case you need that extra volume or length.*

*We also offer habit and babe clip in extensions.*
